Exam details

Who is this certification for?

Candidates for this certification should have foundational knowledge of machine learning (ML) and artificial intelligence (AI) concepts and related Microsoft Azure services. This certification is intended for candidates with both technical and non-technical backgrounds. Data science and software engineering experience are not required; however, some general programming knowledge or experience would be beneficial.

AI-900:
Microsoft Azure AI Fundamentals

Skills measured:

- Describe AI workloads and considerations
- Describe fundamental principles of machine learning on Azure
- Describe features of computer vision workloads on Azure
- Describe features of Natural Language Processing (NLP) workloads on Azure
- Describe features of conversational AI workloads on Azure

Knowledge and experience:

A candidate for this exam should have knowledge of common Machine Learning and Artificial Intelligence workloads and how to implement them on Azure.

Certification

Pass certification exam **AI-900** to earn this certification

Microsoft Certified:
Azure AI Fundamentals

Azure AI Fundamentals validates foundational knowledge of machine learning and artificial intelligence concepts and related Microsoft Azure services.
